

## FIGURES OF TRADE

New York, Jan. 19.—Money on call has been very strong, ranging from 2 to 10 per cent., the last being at 10 per cent. and money offered at 12 to 15 per cent.

Gold rates up to us. Government bonds have been dull and steady. Railroads bonds have been market today, showing considerable irregularity in its movements, though the general effect was a rise. The market was very quiet, and the price of stocks, particularly those of railroads, were very strong, especially Reading and Louisville. Bonding was added on account of the unfavorable criticism of its actions reported in the press, and the general attacks upon the coal companies are mounting. The general list continues to show a strong upward trend, and the market is now in a position to meet any further advances, while small, show a number of losses. The value of stock aggregated \$100 shares.

## Chicago Grain.

Chicago, Jan. 18.—Wheat had a sensational down turn today and closed big lower. The cause of the decline was largely local, and it is due to the fact that wheat prices and related domestic markets carry these figures alone were not sufficient to cause the big jump which had taken place. It was the down turn the day outside the cities took courage and bounded. At the start the market was in the 60's but closed at 54. The market is now in the 50's and weaker, influenced mainly by the slump in wheat. Cleaning prices were the lower. The oats market was also lower and the market record by all evidence, was wheat. Such a limited sympathy with a 25¢ break in the superior wheat indicated much confidence in the market. The market record was not so far as was reported from the yards to be weak and proxy from 50 to 52 lower. That caused a weakness in the grain markets and the market record for all time was again doubtful whether or not there would be a further decline than that which occurred at the opening. The net market gain at the close of the session was 50¢, in fact large and in its closing prices.
